Business details and awards	Our business priority is that we must produce fine seafood. We have more than 80 years history as a seafood processing company. In this long term period, we integrated methods how to provide fine foods as a seafood professional. Our productions are not only good flavour but also well concerned using more natural ingredients for our customers rather than using chemical additives. Also we provide less bread ratio for the products because we really want to make our customer know the taste of fine fish. From these reasons, our productions are really suitable for the all age groupe from young to elder persons. We wish lots of customers would enjoy our Japanese top quality seafoods!
