Business details and awards	<p>We produce whitebait products in Oarai-town in Ibaraki Prefecture. We are able to catch fresh, good quality young sardines in Oarai-town by using dragnet fishing boats. We have found the right temperature to boil in a pot, the perfect amount of salt, and the appropriate level of dryness to bring out the umami of the whitebait itself. We supply our products not only to wholesale markets and trading companies, but also to our own stores, local souvenir shops, and restaurants.</p> <p>We work hard to offer delicious products that will bring you all smile by utilizing very fresh ingredients.</p>
