Hobikirenkonmonogatari

Ibaraki Prefecture is the largest lotus root producer in Japan. We are the only company that puts lotus root on baked goods that can last for a long time. The baked pastries (tuiles), which have a crunchy texture with a moderate sweetness flavored with almonds, are baked in the shape of an arm to resemble the sails of a traditional Kasumigaura sailboat. Almonds are also known as a natural supplement because of their high nutritional value.
